

Security

Dear Parents,

We keep our front door locked at all times. You will be able to let yourself in with a 5 digit code. What I need from you is a 5 digit code that will be your unique code for entering the building. You can either share one as a family, which is preferred, or each parent can create their own. Please fill in the form below letting me know what your 5 digit code will be so that it can be programmed. Please note that once your code has been entered you need to push the # button to gain access. (Codes cannot be higher than 62500)

Thank you for your cooperation,

Isabel Nussbaumer and the St. Paul's Plus Staff
