### FEATURES

## FEATURE: THE LATEST APPLE IPHONE

APRIL 29, 2021 | ROHAN SABARIKANTH | 13 COMMENTS

Apple Inc, founded by Steve Jobs on April 1<sup>st</sup>, 1976, is easily one of the most famous technology companies in the world. The company began with desktop computers and sought further fame through creating devices such as their popular iPhone and Apple Watch.

The first apple iPhone was released June 29<sup>th</sup>, 2007 and was called the iPhone 2G. Throughout the years, Apple kept releasing different types of iPhones, such as the iPhone 4 (June 24<sup>th</sup>, 2010), and the iPhone 5s (September 20, 2013). Each of these iPhones had different applications and exhibited the most modern technology of their times. This work led to the most modern iPhone, the iPhone 12 pro, which was released on the 13<sup>th</sup> of October 2020.

The iPhone 12 pro is one of Apple's most profitable products. It was a great attraction back in 2020, and its popularity has continued in 2021. This iPhone comes with a lot of modern technology, such as facial recognition, four camera lenses, a ceramic shield cover, 5G connectivity, and surprisingly, the design was

based on the iPad Pro. Each of the technological advances featured in this iPhone have brought outstanding fame to Apple and have made the iPhone 12 pro the most popular Apple product of the year.

According to the website, Marcusrumors.com, the iPhone 12 pro has many interesting features, including higher-tech cameras, low-light performance, noise reduction, and improved contrast. The iPhone 12 pro has only one downside, which is its 5G compatibility. The main reason for this downside is that it causes the connectivity to be bad since the connection can be easily interrupted by physical objects around the user and the battery drains rapidly.

From the first 2007 iPhone to the modern iPhone 12 pro, Apple has added many new, 'techy' advances to its technology. Apple has earned more than \$91.8 billion, increasing the company's wealth and worth. Fans of Apple devices are eager to know what will be coming up next.

Wow that was odd. I just wrote an incredibly long comment but after I  
clicked submit my comment didn't appear. Grrrr...  
well I'm not writing all that over again. Anyways, just wanted to  
say superb blog!

I am really enjoying the theme/design of your weblog.  
Do you ever run into any internet browser compatibility problems?

A small number of my blog visitors have complained about my website not working correctly  
in Explorer but looks great in Firefox. Do you have any solutions to help fix this problem?
